

On Campus - Finding a Book in the AGS Library Circulating Collection

Go to: <http://www.librarything.com/catalog/adlermn>

Click on: Adlermn has a suggested style for viewing this library (use it):

The screenshot shows the LibraryThing interface for the Adlermn library. At the top, there are navigation tabs: Home, Groups, Talk, and Zeitgeist. A search bar is visible. Below the navigation, there are options for 'All collections', 'List', 'Covers', 'Tags', and 'Authors'. A 'Style' selector is set to 'A'. The page shows '1 - 50 of 2969' items. A message states 'adlermn has a suggested style for viewing this library (use it)'. The member name is 'adlermn'. A table lists books with columns for Title, Author, Date, Tags, Rating, and Entry date. The first entry is 'Genograms: Assessment and Intervention (Third Edition) (Norton Professional Books)' by Monica McGoldrick, dated 2008. It has a rating of 5 stars and an entry date of 2013-09-19. The book has 103 users and 2 reviews.

To search for a book in the AGS collection, type a few words into the **Search this library** box:

This screenshot is identical to the previous one, but a black arrow points from the text above to the 'Search this library' input field in the top right corner of the page.

To find books on the shelves, use the **LC Classification (call number)** listed in LibraryThing:

This screenshot shows the search results for 'genograms 2007'. The search bar contains 'genograms 2007'. The results show one book: 'Genograms: Assessment and Intervention (Third Edition) (Norton Professional Books)' by Monica McGoldrick. The 'LC Classification' column shows 'RC 488.5 M395 2007'. A black arrow points from the text above to this column. The 'Subject' column lists 'Behavioral assessment > Charts, diagrams, etc' and 'Family psychotherapy > Technique'. The book has a rating of 5 stars and 103 users.

For example, if you are looking for *Genograms: Assessment and Intervention (Third Edition)*, make note of the LC Classification (call number): **RC 488.5 M395 2007**, then go to the shelves in the library and look for that combination of letters and numbers.

Can't find a book on the shelves? Ask! Email: library@alfredadler.edu, and the librarian will check the library collection for you.
